LEG1109CB Printed in Japan

PAC611HFM

First launched in 1990, the Pacifica series was driven by the Californian session scene of the day - where versatility, performance and individuality were key. Inspired by those custom-shop guitars, and that original vision, Pacifica 611 is today's embodiment of the Pacifica concept.

Specifications

Model	PAC611HFM
Construction	Bolt-on
Scale Length	25 1/2" (648mm)
Fingerboard	Rosewood
Radius	350mm
Frets	22
Body	Flamed Maple + Alder
Neck	Maple (Tinted)
Tuners	Grover Locking Tuner
Bridge	Hardtail Bridge with Graph Tech String Saver Saddle
Pickups	Seymour Duncan SP90-1n, Custom 5
Pickup Switch	3-Way
Controls	Master Volume, Master Tone(Push-Pull Coil Split)
Colors	Translucent Black, Translucent Purple, Root Beer

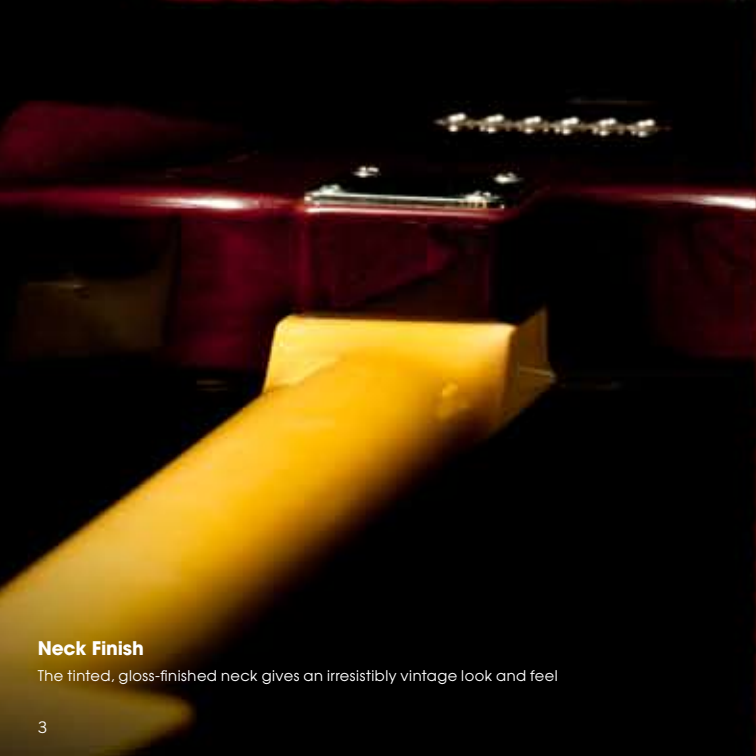

Root Beer

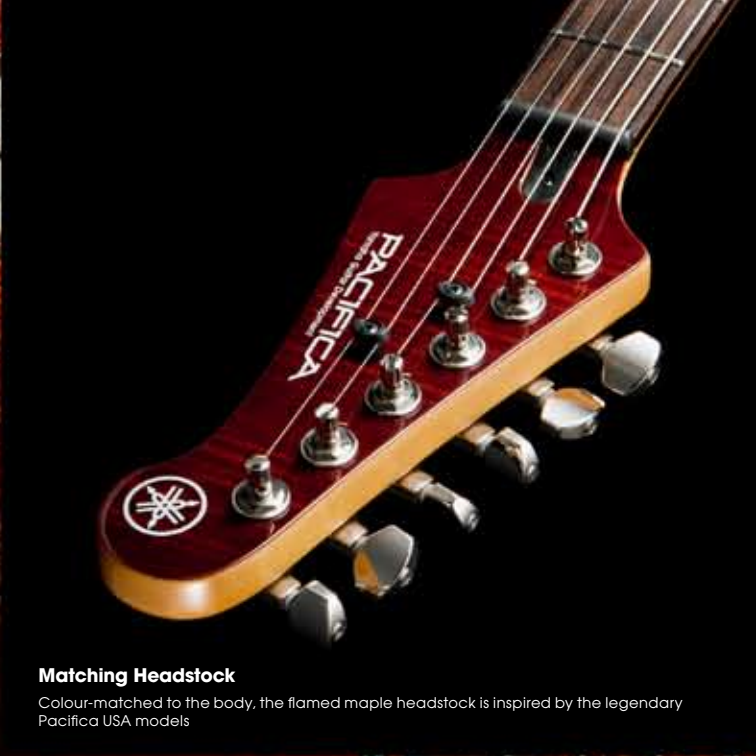

Flamed Maple Top

Stunning high-grade flamed maple is matched with exclusive see-thru colours for an unmis-takable boutique look

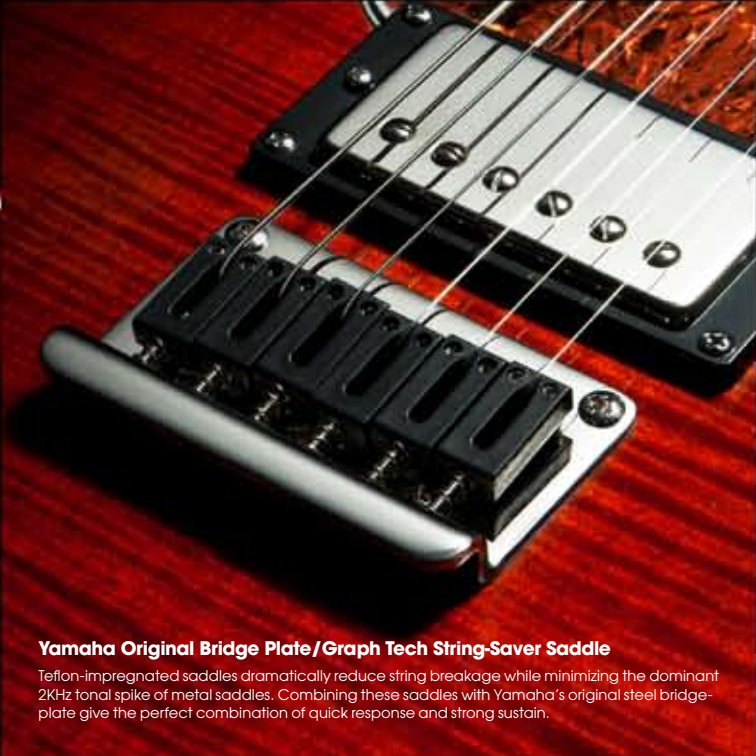

Neck Finish

The tinted, gloss-finished neck gives an irresistibly vintage look and feel

Matching Headstock

Colour-matched to the body, the flamed maple headstock is inspired by the legendary Pacifica USA models

Yamaha Original Bridge Plate/Graph Tech String-Saver Saddle

Teflon-impregnated saddles dramatically reduce string breakage while minimizing the dominant 2KHz tonal spike of metal saddles. Combining these saddles with Yamaha's original steel bridge-plate give the perfect combination of quick response and strong sustain.

Specifications

Locking Tuners

Precision, pro-spec Grover locking machineheads lock strings automatically for stable tuning and ultra-fast string changes

Coil Tap

The standard-equipment coil tap function allows simple switching from humbucker to single-coil tones from the Seymour Duncan Custom 5 bridge pickup

Graph Tech TUSQ XL nut and string tree

TUSQ XL is precision engineered to couple the strings vibrations to the neck and bring out hidden harmonics and richness in every note. 500 times more slippery than graphite, the Teflon-impregnat-ed material eliminates string-binging and ensures tuning stability, even with massive string bends.

Seymour Duncan Custom 5

Like a higher-output version of the classic '59 humbucker, the Custom 5 was developed in response to players customizing their SH-5 Custom or SH-11 Custom pickups with Alnico 5 magnets for a more vintage, less distorted tone but retaining a deeper bottom end than the stock '59.

Seymour Duncan SP90-1

Wound with plain enamel wire on a 1950's Leesona winding machine, the SP90-1's tone is a faithful reproduction of the original soapbar pickups. Short, wide bobbins give a higher output and more powerful midrange than conventional single-coils for a fat neck pickup tone with clarity impossible to achieve with humbucking pickups.

Candy Apple Red

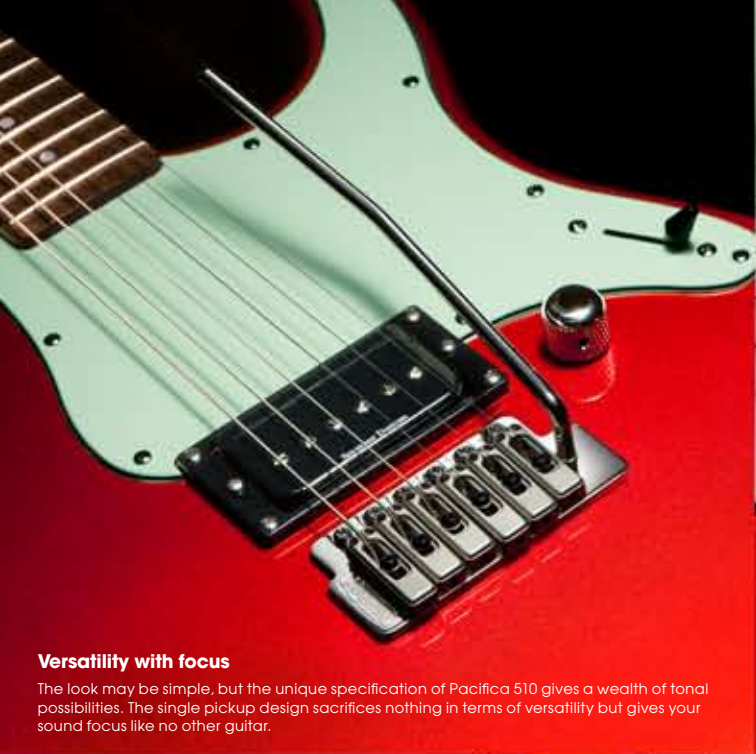

PAC510V

One pickup.
Professional hardware.
No frills.

Pacifica 510 means business, whatever style you’re playing.

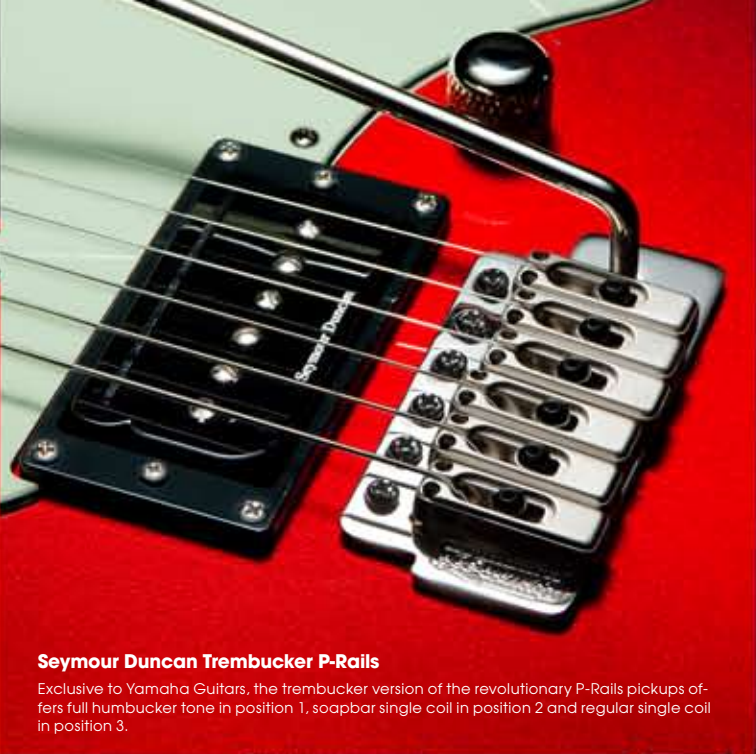

Specifications

Model	PAC510V
Construction	Bolt-on
Scale Length	25 1/2" (648mm)
Fingerboard	Rosewood
Radius	350mm
Frets	22
Body	Alder
Neck	Maple (Tinted)
Tuners	Grover Locking Tuner
Bridge	Wilkinson VS50-6
Pickup	Seymour Duncan Trembucker P-Rails
Pickup Switch	3-Way
Controls	Master Volume, Master Tone
Colors	Black, Candy Apple Red, Old Violine Sunburst

Versatility with focus

The look may be simple, but the unique specification of Pacifica 510 gives a wealth of tonal possibilities. The single pickup design sacrifices nothing in terms of versatility but gives your sound focus like no other guitar.

Seymour Duncan Trembucker P-Rails

Exclusive to Yamaha Guitars, the trembucker version of the revolutionary P-Rails pickups offers full humbucker tone in position 1, soapbar single coil in position 2 and regular single coil in position 3.

Hot-rod vintage looks

Tinted, gloss-finished neck and aged mint-green pickguard are unmistakably custom-shop hot-rod cool.

Specifications

Locking Tuners

Precision, pro-spec Grover locking machineheads lock strings automatically for stable tuning and ultra-fast string changes

Graph Tech TUSQ XL nut and string tree

TUSQ XL is precision engineered to couple the strings vibrations to the neck and bring out hidden harmonics and richness in every note. 500 times more slippery than graphite, the Teflon-impregnated material eliminates string-binging and ensures tuning stability, even with heavy tremolo use or massive string bends.

Wilkinson VS50 bridge

Precision machined zinc saddles are matched with a hardened steel, knife-edge baseplate and zinc block for outstanding feel, stability and tone.

PAC311H

With the looks, feel and versatility of Pacifica 611 built in as standard, Pacifica 311 makes real custom-shop vibe more accessible than ever. Custom-wound pickups and high-grade hardware are matched with solid tonewood construction to give this guitar the essence of the Pacifica series – uncompromising performance.
